

Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically start to both unload and release when the bumper release contacts the side of a dumpster. When dumping is completed, the hopper is able to return to original upright and locked position. This piece of machinery is likewise accessible together with a cable that allows operation from the seat of the lift truck so as to have the alternative of manually dumping the hopper. There is a locking chain provided to be able to lock the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
