Clark Totalift has 20 unique makes of lift trucks, with parts covering more than 120,000 specific items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this system is particularly economical and enables minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for production facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and brilliance of their products while minimizing costs. The new value engineering program combines modern product growth and offers improved consumer support and service within the industry.
