

Forklift Electrical Parts

Forklift Electrical Parts - Forklifts may be purposely marked to be used in hazardous locations. A marked truck denotes the design has met the minimum standards of ANSI/UL 558 intended for engine powered lift trucks or ANSI/UL 583 for electric lift trucks for the type of label put.

Applications for marked lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Areas of Use, Maintenance and Operation, and Type Designations. Ask your local insurance provider and Fire Marshall for more information concerning the approved uses of industrial powered trucks in your application.

If the forklift has been proven to meet the outlined criteria, the following labels can be put. A marked truck would have the type description placed on the lift truck nameplate and would have one of the following labels attached.
